ean Wang está com jet-lag. Ele tem estado acordado desde 4am depois de chegar Londres tarde da noite anterior, quando ele não conseguia voltar a dormir o cineasta dirigiu para Southbank Centre (Centro). Rodeado pelas ruas desertas do cidade foi apenas dele como um skate enquanto tentava truques que estava obcecado por andar no patim na adolescência "Tudo aquilo é tudo quanto eu amo agora", quer seja música ouço todo mundo!

Wang, 30 anos de idade canalizou essa paixão para seu filme tenso Ddi (), que significa "irmãozinho" chinês. O conto semi-autobiográfico do pai da família Changa Chris [Izaac Wang) é um estranho e angustiado menino americano taiwanês com 13 ano a lidar sua avó; ele está crescendo à parte dos seus amigos enquanto tenta se separar dele

Enquanto Ddi foi inspirado por sua própria vida, não espere um livro de memórias. Wang diz que enquanto pegamos uma pausa entre seus compromissos no festival Sundance London (o filme ganhou o prestigioso prêmio do público dramático na Sundança US). "O contêiner é autobiográfico; Eu tinha 13 anos 2008, sou Taiwanense? Cresci Na Bay Area [em São Francisco] - cresci patinando e ainda patinei." Mas tudo dentro desse recipiente está fictício".

Suzano: China's vast market and innovation ecosystem drive shared growth

Rio de Janeiro, 16 jun (Xinhua) -- A giant Brazilian pulp 2 and paper company, Suzano, said that China's enormous market, vibrant innovation ecosystem, and high-quality development of new productive forces are 2 creating shared growth opportunities for global businesses.

Strong business results in China

Pablo Machado, Suzano's Asia business management president, told Xinhua that 2 the company's China operations have achieved strong results in the first five months of this year, in line with China's 2 solid economic foundations.

Celebrating its centenary this year, Suzano has been present in the Chinese market since the 1980s, witnessing China's 2 continuous rise as its largest export market, accounting for about 40% of the company's total global exports.

Year Sales in China (tonnes)

1980s Approx. 2 20,000

2024 Over 5,000,000

"Over the past four decades, we have witnessed China's impressive high-speed economic growth and the rapid development of the 2 market in our industry," Machado said. Suzano's sales in the Chinese pulp market have increased from around 20,000 tonnes to 2 over 5,000,000 tonnes

during this period.

Innovation and sustainable development

Machado highlighted China's rapid growth and modernization of its economy, with significant 2 investments in research and development, leading to a strong innovation ecosystem.

To leverage innovation and improve sustainable development, Suzano established the 2 Asia Innovability Hub in Shanghai last year, addressing customers' evolving needs for pulp and new biobased materials and applications.

"We realized 2 that we would be missing a great opportunity if we were not present in China and learning from the Chinese 2 innovation ecosystem," Machado said. He added that the Chinese innovation ecosystem allows them not only to promote their research and 2 development in China but also to benefit from local advances and apply them in operations in other regions.

A growing, evolving 2 China

Machado, who first visited China in 2004, has been impressed by the tremendous changes brought by various reforms in the 2 country.

"Each time I returned, I was surprised by the speed of development, not only economic but also in terms of 2 improving people's standard of living," Machado said.

As a foreign executive operating in China, Machado is particularly pleased with the Chinese 2 government's continuous efforts to develop a more inclusive and open business environment.

Transitioning to high-quality development

Machado believes that China's recent focus 2 on developing new high-quality productive forces is a natural transition for the Chinese economy.

"When a country is small, it can 2 grow fast, but as it becomes larger, it is impossible to maintain the same speed. China recognized this and made 2 the transition from high-speed growth to highquality development, which is a path for new productive forces," Machado observed.

Machado said that 2 Suzano, as a company known for its expertise in tree cultivation and understanding of the science behind it, believes that 2 biobased materials can play a crucial role in China's transition to a low-carbon economy, an essential part of developing new 2 productive forces.
